1- FREE MOVEMENT OF GOODS

Screening Report for Chapter 1 on Free Movements of Goods was communicated to Turkey on 17 October 2007 by the Portuguese Presidency. The Chapter is one of the 8 chapters that are blocked due to the Council Decision requiring full implementation of the Additional Protocol. Regarding this chapter, there are 4 technical opening benchmarks:

1. Removal of import permits or license requirements, as well as disproportionate requirements for certificates, for the products covered by the Customs Union, other than motor vehicles, and with particular reference to alcoholic beverages. Submission to the Commission of a plan for removing import permits on used motor vehicles.
2. Completing the internal screening of measures contrary to Article 28-30 of the EC Treaty (concerning the abolishment of quotas between the Member States in exports and imports), provides a plan for their removal and introduces the mutual recognition clause in its legal order.
3. Presenting an action plan with milestones for the remaining alignment in the areas of horizontal and procedural measures, as well as pharmaceuticals.
4. Presenting to the Commission a comprehensive strategy with milestones for the upgrade of administrative capacity necessary for the implementation of the EU legislation on market surveillance.

8- COMPETITION POLICY

Screening Report for Competition Policy Chapter has been conveyed to Turkey by the Austrian Presidency on 28 June 2006. Regarding this Chapter, there are 6 technical opening benchmarks:

1. Transparency in the area of state aid is ensured by providing a comprehensive inventory of all state aid measures covered by the Association Council Decision No. 1/95 on implementing the final phase of the Customs Union.
2. Detailed information is provided on the evolution of capacity in the steel sector and state aid given to each company since 2001.
3. A state aid law is adopted setting out general conditions and rules for authorization, monitoring the implementation and the recovery of state aid, for the purpose of implementing the obligations resulting from existing bilateral agreements between Turkey and the EU.
4. An operationally independent state aid authority is set up with the powers necessary for the full application of the state aid rules resulting from existing bilateral agreements. This authority has the power to authorize state aid schemes and individual aid grants, as well as the power for the recovery of the unlawfully granted aid. Until then, in line with the requirements of the Customs Union Agreement, the adoption of new aid schemes or extension of existing ones is avoided.
5. An action plan, accepted by the Commission, is presented with a clear timetable for the alignment of all remaining aid schemes or equivalent measures identified as incompatible with the obligations resulting from existing bilateral agreements between Turkey and the EU.
6. All necessary measures are adopted to ensure that no steel company benefits from state aid given in breach of the Agreement between the ECSC and Turkey on trade in coal and steel products. Such state aids given since 2001 could be accepted by the Council under strict conditions to be inserted in a national restructuring programme (NRP). Such restructuring programme is adopted before 1 September 2006, in order to meet those strict conditions in the best manner.

10- INFORMATION SOCIETY AND MEDIA

Chapter 10 on Information Society and Media was opened to accession negotiations on 19 December 2008 during the French Presidency. Regarding this chapter, there are 5 technical closing benchmarks:

1. Turkey completes the legislative alignment with the acquis on electronic communications, in particular on universal service, consumer rights and spectrum management (including harmonisation of radiofrequency allocation), and with the acquis on information society services.
2. Turkey, following the market analyses, secures implementation of competitive safeguard measures for operators with significant market power and the general authorisation regime in line with the acquis. In particular, Turkey adopts an attitude based on experiences on the protection of the rights of new entrants on the electronic communications market.
3. Turkey ensures sufficient administrative capacity to enforce the acquis in the field of electronic communications, as well as the transparency, predictability and independence of the telecommunications regulator.
4. Turkey adopts legislation aimed at aligning with the acquis in the field of audiovisual policy, notably the Audiovisual Media Services Directive, including measures to ensure that the national legal framework complies with the principle of freedom of reception and retransmission of television broadcasts.
5. Turkey completes public consultation with the relevant stakeholders as regards the impact of the measures adopted in view of enhancing the transparency of the audiovisual regulatory process and the independence of the competent regulatory body, and reflects the findings as appropriate.

11- AGRICULTURE AND RURAL DEVELOPMENT

The Screening Report for Chapter 11 on Agriculture and Rural Development was communicated to Turkey on 24 January 2007 by the German Presidency. Chapter 11 is one of the 8 chapters that are blocked due to the Council Decision requiring full implementation of the Additional Protocol. Regarding this chapter, there are 5 technical opening benchmarks:

1. Turkey establishes an IPARD Agency (Instrument for Pre-accession Assistance in Rural Development) accredited in compliance with EU requirements.
2. Turkey presents to the Commission a strategy to reverse the tendency of recent years of increasing importance of coupled direct support payments and price support measures in the agriculture budget, in favour of decoupled direct support in line with the current trend of the Common Agricultural Policy. This strategy should also include steps towards the alignment of public support for state economic enterprises with EU state aid rules, as well as the respect by such enterprises of the EU rules on transparency.
3. Turkey presents to the Commission a detailed strategy referring also to sensitive products such as cereals, sugar, milk, livestock, fruit and vegetables (including targets, deadlines, responsible authority and cost estimates) to ensure sound and reliable statistical information about agriculture and rural development, in order to reach a satisfactory level to start negotiations.
4. Turkey presents to the Commission a strategy on how it intends to further develop the system of land identification and the National Farmer Registration System to prepare for controls on agricultural land.
5. Turkey lifts restrictions on trade in beef meat, live bovine animals and derivate products.

12- FOOD SAFETY, VETERINARY AND PHYTOSANITARY POLICY

Chapter 12 on Food Safety, Veterinary and Phytosanitary Policy was opened to accession negotiations on 30 June 2010 during the Spanish Presidency. Regarding this chapter, there are 6 technical closing benchmarks:

1. Turkey implements systems for identification and registration of animals that are compliant with the EU acquis and fully operational, including through implementing its commitments made in view of meeting the relevant opening benchmark.
2. Turkey submits an approved national programme for the upgrading of establishments for products of animal origin, including establishments for animal by-products. This programme includes a precise plan for the monitoring by the Turkish authorities of the process of upgrading establishments. This national programme includes a strategy for the use of non-compliant raw milk. Turkey also demonstrates sufficient progress in the implementation of this national programme. Furthermore, Turkey demonstrates that it has devoted sufficient human and financial resources for monitoring the process of upgrading the establishments covered by the national programme.
3. Turkey fulfils its obligations related to animal disease notification, ensuring satisfactory cooperation with the EU Member States. Surveillance and control measures for animal diseases notifiable to the EU and contingency plans for major epizootic diseases as provided for under the acquis are implemented and the acquis in the area of Foot and Mouth Disease (FMD) is fully applied by implementing a detailed eradication plan established in advance.
4. Turkey aligns and implements an effective system for the control of Transmissible Spongiform Encephalopathies (TSEs): feed ban, control of specified risk materials, TSEs testings.
5. Turkey aligns the EU animal welfare legislation and ensures that the sector is aware and prepared, sufficiently in advance, for efficient implementation at the latest by accession.
6. Turkey continues to set up and develop, in accordance with the acquis, the relevant administrative structures, in particular in order to implement a fully EU-compliant system for all relevant official controls, in particular operational Border Inspection Posts, including the funding of this system; Turkey further increases its administrative capacities and infrastructures; Turkey demonstrates that it will have sufficient administrative capacity to correctly implement and apply all the acquis covered by this Chapter by accession.

17- ECONOMIC AND MONETARY POLICY

Chapter 17 on Economic and Monetary Policy was opened to accession negotiations on 14 December 2007 during the Presidency of Luxembourg. Regarding this chapter, there are 2 technical closing benchmarks:

1. Turkey aligns its legislative framework to ensure the independence of the Central Bank. Alignment process includes the prohibition of financing of the public sector by the central banks, prohibition of privileged access to financial institutions by the public sector, ensuring the integration of its central bank into the ESCB and compatibility of the Central Bank's objectives with the objectives of the ESCB.
2. Turkey aligns its legislative framework in order to ensure compliance with requirements for national budgetary frameworks as laid down in Council Directive 2011/85/EU.

18- STATISTICS

Chapter 18 on Statistics was opened to accession negotiations on 26 June 2007 during the German Presidency. Regarding this chapter, there are 2 technical closing benchmarks:

1. Turkey submits to the Commission (Eurostat) a detailed description on progress made in setting up the farm register, including a timetable and means for its completion. Moreover, Turkey submits a detailed description of the foreseen methodology and organisational set-up to be used for the collection of statistics on crop production statistics, livestock, meat production, milk production, dairy products and agro-monetary statistics as well as livestock, meat production, milk production and dairy statistics, showing substantial progress towards the compliance with the acquis.
2. Turkey submits to the Commission (Eurostat) key national accounts indicators (GDP and GNI and main components) in accordance with ESA 95 (ESA 2010) together with a detailed description of the methodology used.

19- SOCIAL POLICY AND EMPLOYMENT

Screening Report for Chapter 19 on Social Policy and Employment was communicated to Turkey on 19 January 2007 by the German Presidency. Regarding this chapter, there are 2 technical opening benchmarks:

1. It is ensured that full trade union rights are respected in line with EU standards and the relevant ILO Conventions, in particular as regards the right to organise, the right to strike and the right to bargain collectively. To this effect, Turkey needs to eliminate existing restrictions and adopt fully revised legislation in this area for both private and public sectors.
2. The Commission is provided with an action plan for the gradual implementation and enforcement throughout the country of the acquis (as necessary) in each area covered by this Chapter for the benefit of the entire workforce including undeclared workers. The Action Plan includes, a) the economic and social analysis on undeclared work in Turkey, b) a timetable for the envisaged measures, c) identification of the allocated resources, d) identification of the relevant institutions and social parties involved (*This Action Plan was submitted to the European Commission on 30 April 2010*).

20- ENTERPRISE AND INDUSTRIAL POLICY

Chapter 20 on Enterprise and Industrial Policy was opened to accession negotiations on 29 March 2007 during the German Presidency. Regarding this chapter, there is 1 technical closing benchmark:

1. Turkey provides the Commission with a revised comprehensive industrial policy strategy aiming at strengthening Turkey's industrial competitiveness. This strategy addresses in some detail all key sectors of industry, including all those referred to in the 2003 Industrial Strategy, inter alia shipbuilding, railway- and food industry. It is built on a thorough evaluation of past policy performance and a solid analysis of the competitiveness of industries concerned. It enables an improved policy coordination and coherence and lead to better policy ownership and improved policy implementation. The strategy also takes account of the two sectoral strategy documents already under preparation (for the steel and the automotive supply industry) as well as of any future strategic sectoral documents, and the results of Turkey's sectoral technical committees including the ones on motor vehicles and textiles sectors. *(The Strategy entered into force upon its publication in the Official Gazette No. 27828 (bis) of January 27, 2011. The translation of the document was submitted to the EU on 2 March 2011. In a letter dated 14 April 2011 by the European Commission, it was stated that the technical closing benchmark of the chapter was met, but the final decision would be made by the EU Council.)*

22- REGIONAL POLICY AND COORDINATION OF STRUCTURAL INSTRUMENTS

Chapter on Regional Policy and Coordination of Structural Instruments was opened to accession negotiations on 5 November 2013 during the Lithuanian Presidency. Regarding this chapter, there are 6 technical closing benchmarks:

1. Turkey demonstrates a satisfactory performance of the indirect management system under Instrument for Pre-accession (IPA) in the regional development and human resources policy areas leading to the conferral of management of EU pre-accession funds without ex-ante controls.
2. Turkey adopts an institutional set-up for the implementation of EU Cohesion Policy (Managing Authorities, Audit Authorities and Intermediate Bodies etc.).
3. Turkey submits to the Commission a capacity building plan for EU Cohesion Policy (covering actions at national, regional and local levels and staff retention policy).
4. Turkey designates and demonstrates the efficient functioning of its national policy leading to the strengthening of its economic, social and territorial cohesion.
5. Turkey submits to the Commission drafts of national strategic planning document and operational programmes under EU Cohesion Policy which complement Turkey's own policy – including actions at the regional and local levels.
6. Turkey designs and completes the set-up of its Management Information System (MIS) based on a through needs assessment and an analysis of good practice across the European Union.

27- ENVIRONMENT AND CLIMATE CHANGE

Chapter 27 on the Environment and Climate Change was opened to accession negotiations on 21 December 2009 during the Swedish Presidency. Regarding this chapter, there are 5 technical closing benchmarks:

1. Turkey adopts legislation aimed at transposing the EU's horizontal and framework environmental legislation, including its transboundary aspects.
2. Turkey adopts legislation aimed at transposing the acquis in the field of water quality, notably its Framework Water Protection Law; establishes River Basin Protection Action Plans; and makes further significant progress in legislative alignment in this sector by adopting implementing legislation.
3. Turkey adopts legislation aimed at transposing the acquis in the field of industrial pollution control and risk management.
4. Turkey continues its alignment with the acquis in the remaining sectors of this Chapter, including nature protection and waste management, in line with the Plan for Setting up Necessary Administrative Capacities at National, Regional and Local Level and Required Financial Resources for Implementing the Environmental Acquis and demonstrates that it will be fully prepared to ensure the implementation and enforcement of the EU requirements at the date of accession.
5. Turkey continues capacity building of the administrative bodies at all levels, including inspection services, in line with the Plan for Setting up Necessary Administrative Capacities at National, Regional and Local Level and Required Financial Resources for Implementing the Environmental Acquis, further improves coordination of work and demonstrates that all appropriate administrative structures will be in place in good time before accession to enable implementation and enforcement of the acquis in all sectors of this Chapter.

28- CONSUMER AND HEALTH PROTECTION

Chapter 28 on Consumer and Health Protection was opened to accession negotiations on 19 December 2007 during the Portuguese Presidency. Regarding this chapter, there are 5 technical closing benchmarks:

1. Turkey revises its current legislation on general product safety and further amends its legislation on consumer protection in order to align with the acquis (including on consumer sales, unfair contract terms, distance selling, doorstep selling, price indication, package travel, timeshare, consumer credit, injunctions, distance marketing of financial services and unfair commercial practices) and demonstrates that adequate administrative structures and enforcement capacity, such as the necessary means to participate in the Community's Rapid Alert System (RAPEX), will be in place to implement them correctly by the time of accession.
2. Turkey adopts the legislation aiming at transposing the Commission implementing directives in the area of technical requirements for blood and blood components, traceability requirements and notification of serious adverse reactions and events and of a quality system for blood establishments. Turkey demonstrates that it will have the adequate administrative capacity to properly implement and enforce this legislation by the time of accession.
3. Turkey adopts the legislation aiming at transposing the acquis on tissues and cells, especially with regard to record keeping for 30 years, reproductive cells, reporting of serious adverse events and reactions, data protection and standard operating procedures for processing and testing of cells and tissues. Turkey demonstrates that it will have the adequate administrative capacity to properly implement and enforce this legislation by the time of accession.
4. Turkey achieves substantive progress in transposing tobacco products regulation acquis, especially by focusing on high tar yields and oral tobacco, as well as in transposing the tobacco advertising acquis.
5. Turkey demonstrates that adequate institutional and administrative capacity will be in place to fulfil by the time of accession, EU reporting and coordination obligations including participation in the Early Warning Response System (EWRS) in the field of communicable diseases.
